EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The following amendments were made to overcome claim objections and 35 U.S.C. 112, 2nd paragraph problems, but were not made to overcome any of the prior art of record. The application has been amended as follows:

Claim 1, line 10, replaced "portions" with --portion--.

Claim 1, line 23, replaced first occurrence of "to" with --or--.

Claim 1, line 29, inserted --and-- after "base".

Claim 5, line 1, replaced "apparatus" with --strip--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose restraint members spaced inwardly from the side edges of the elongated, flexible bendable base and attached to and extending between adjacent wire support members across the spaces defined thereby resisting lengthwise stretching of the strip and limiting stretching of the electrically conductive, undulating, crimped, extensible wires while allowing the elongated flexible, bendable base to bend both out of plane and within plane to conform to the shape of the support.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
